- The number of stitches you should have at the end of each row should be the same throughout and should be 1 less than the number of chains in your foundation chain row

### **Pattern**

Cut a length of sewing elastic approximately 15 cm (6 inches) for thinner hair, 20 cm (8 inches) for thicker hair.

Chain a foundation chain row that is approximately 5 cm (2 inches) longer than the length of your piece of elastic (add an extra 5 cm or 2" for thicker hair). Ch 1 more, turn

**R1:** hdc in the 2<sup>nd</sup> ch from the hook and in each across. Ch 1, turn

**R2:** hdc in each st across. Ch 1, turn

Repeat Row 2 until piece measures approximately 7.5 cm (3 inches) in height.

Fasten off and leave a very long tail (around 60 cm or 24") for sewing. Weave in the short tail.

### **Assembly**

- Thread up your long tail with your yarn needle
- Fold your fabric in half, length-wise, and sew through each set of stitches along edges to create seam
- Pin one end of your elastic to one end of your crochet tube
- Put a safety pin on the other end of your elastic and work it through the tube to the other end
- Carefully unpin the first end of the elastic and pin both ends of the elastic together while you thread your sewing needle
- Unpin and slightly overlap the two ends of the elastic and sew securely together
- Thread up remaining tail of yarn with yarn needle, pinch the two open edges of the tube together & sew around opening using small, close together stitches
- Knot off yarn and weave in end, trim any excess
